Thank you for choosing one of Northern Diver's excellent made to measure drysuits. In order to ensure a perfect fit and years of trouble free service, we have produced a step by step guide describing the correct procedure to measure for a drysuit.

Please do not measure yourself, enlist the help of a second person to do it for you, as accuracy is essential for a good fitting suit.

Measurements can be made in either imperial or metric sizes and must be made over the undersuit you intend to wear. Your local dealer will be able to assist you in this task or alternatively contact Northern Diver's sales team who will be only too pleased to make suitable arrangements. (Undersuits available on loan subject to credit card details).

An accurate height and weight measurement is essential for a good fitting suit.

### Key Sizes

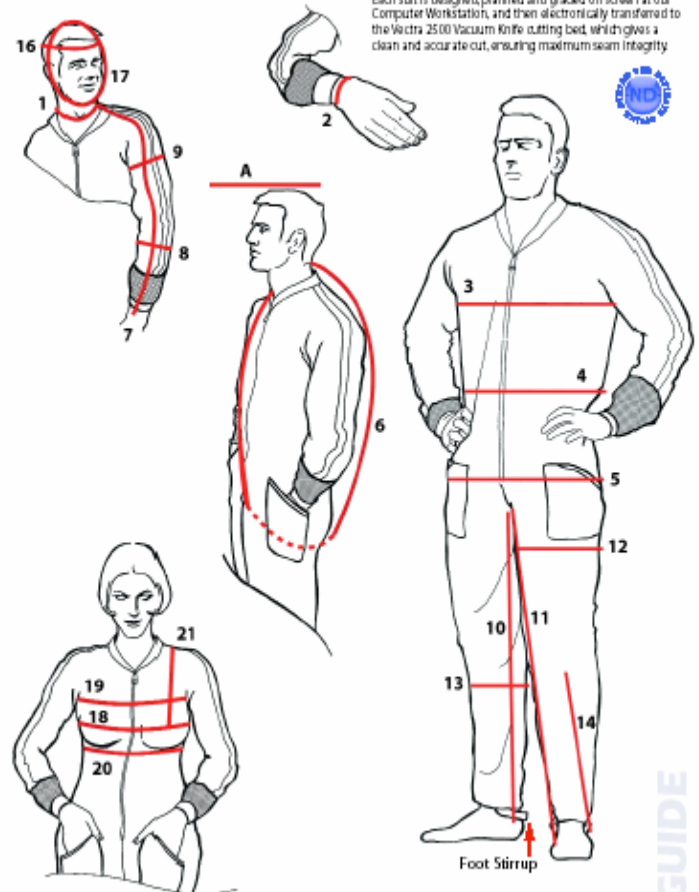

A Height - to be measured against a wall, please do not guess

B Weight - to be taken on accurate scales in the Flectalon undersuit

- 1 Neck - taken over bare skin just below Adam's Apple
- 2 Wrist - taken over bare skin behind wristbone
- 3 Chest - taken around fullest part
- 4 Waist - taken round a relaxed waist (Gent's, be honest please!)
- 5 Hips - taken over fullest part of backside (Ladies, no cheating please!)
- 6 All round body - taken from hollow in front of neck through legs, with undersuit pulled up tight in crotch, (unhook elastic stirrups of Flectalon undersuit), to base of neck
- 7 Base of neck to wristbone
- 8 Forearm - taken round fullest part with finger inside tape
- 9 Bicep - taken round fullest part with finger inside tape
- 10 Crotch to ankle bone - with undersuit pulled up tight in crotch, (unhook elastic stirrups of Flectalon undersuit)
- 11 Crotch to floor - with undersuit pulled up tight in crotch, (unhook elastic stirrups of Flectalon undersuit)
- 12 Thigh - taken round fullest part with finger inside tape
- 13 Calf - taken round fullest part with finger inside tape
- 14 Side ankle bone to centre of knee cap
- 15 Actual shoe size\* - not trainer sizes please
- 16 Head circumference
- 17 All round head - top of head, round chin to top of head
- 18 Additional Ladies measurements:  
Chest - to be taken over fullest part of bust
- 19 Chest above bust - with tape under arm pits
- 20 Under bust
- 21 Top of shoulder to centre of bust

\* Standard size boots from 3 - 13/2 or other show please contact us

Please refer to these diagrams to assist you in measuring

Northern Diver's computerised cutting system means that all suits are precision made to your exact measurements. Each suit is designed, planned and graded on screen at our Computer Workstation, and then electronically transferred to the Vectra 2500 Vacuum Knife cutting bed, which gives a clean and accurate cut, ensuring maximum seam integrity
